PREFACE.

PREFACE.

To preface a volume of historic facts concerning nation builders, statesmen, patriots, men of valor and women who were no less worthy of honor, is to be sponsor for a veritable gift to future America.

The distinctive feature of these volumes is the determined effort on the part of the compiler to make these brief biographies true in every statement.

Earnest and thorough search among original documents and severe sifting of evidence on the truth of every statement is made, to insure accuracy and to avoid chance of error or distortion of facts.

The place the Lineage Book shall fill as a recognized authority on American genealogy will be determined by its ability to prove itself of unquestionable accuracy. To this end the National Society, Daughters of the American Revolution should give its serious and thoughtful attention to provide adequate and dependable data for its own publication as the reference book on early American families.

The Society holds a unique position in the publication world, by reason of its original adventure into the field of Revolutionary records.

With steadfast resolve to count no labor too great to establish the authenticity of every record made, the historical value of the Lineage Book shall be the pride and the glory of every contributing Daughter.

Historian General.
